

Wastewater Hauler Rules & Conditions

Acceptable Waste

Only domestic and commercial waste will be accepted at the Authority's designated wastewater receiving facility. The Authority defines commercial waste as being generated by establishments that produce only domestic waste. Any generators of commercial waste that are involved with food preparation must meet the Authority's grease trap requirements set forth in the Peachtree City Water & Sewerage Authority's current Sewer Use Ordinance in order to discharge their septage at the Authority's receiving plant. The Authority will not, under any circumstances, accept industrial, portable toilet, grease trap / interceptor, laboratory, and / or medical waste.

Discharge Location

All acceptable wastes must be discharged at the Peachtree City Water & Sewerage Authority's Larry B. Turner WRF located at 100 Aviation Way Peachtree City, GA 30269, unless otherwise designated by the Authority. Receiving hours are Monday thru Friday 8:00 AM – 5:00 PM, Saturday 10:00 AM – 2:00 PM, Sunday by appointment only. In order to discharge septage, a representative of the Authority must be present to accept the load. If no personnel are on site to accept septage delivery, haulers should call (404) 557-7819 for assistance. In order to protect the viability of the treatment plant, we reserve the right to refuse waste or to limit the amount of waste to be discharged into the receiving facility.

Transport Vehicle Requirements

The permitted wastewater hauler shall have their company name legibly displayed on both sides of all wastewater transport vehicles that enter the Authority's receiving facility. Due to roadway restrictions, no transport vehicle greater than 4250 gallons will be allowed. Only haulers with established accounts in good standing will be permitted to deliver waste into the Authority's receiving facility.

Manifest Requirements

Authorized wastewater haulers shall manifest the source (with complete address and a contact phone number), accurate volume, and type of all wastes to be delivered to the Authority's receiving facility.

Length of Permit

Beginning April 9, 2018 existing permits will be be valid for 2 years. Permits may be renewed by April 1, 2020 for \$25.00; thereafter, permits will be valid for a period of 5 years.

Fees & Charges

Initial Application Fee charged to establish account	-	\$60.00
Fayette County Capital Recovery Fee per load	-	\$25.00
PCWASA Administrative Fee per load	-	\$25.00
Volumetric Charge per gallon	-	\$0.125

Revocation of Permit

Peachtree City Water & Sewerage Authority approval to dispose of septic tank pumpings may be revoked when:

- After inspection, monitoring or analysis it is determined that the waste to be discharged is in violation of federal, state, local or Authority laws, ordinances or regulations.
- Falsification or intentional misrepresentation of data or statements pertaining to initial application, waste manifest – including volume representation – or other required reporting occurs.

Hauler Responsibilities

A wastewater hauler is responsible for protecting the receiving facility from any contruibuting waste discharges which could inhibit, interfere or otherwise be incompatible with the operations and / or maintenance of the treatment facility including the treatment, use, and / or the disposal of residuals.

Always leave the delivery area tidy and clean. If you spill it, clean it up. If you drop it, pick it up. Be courteous to other waste haulers while on Authority property.
